We're stranded on this rock together and I'll try my  
very best  
Under threat of heat exhaustion Tusken raiders and  
duress  
And can you blame me if I seem a little stressed  
Friends burnt out on glitterstim and my whole life's a  
mess because I'm...

(Chorus)  
Stuck in the outer rim  
I'm stuck you're stuck he's stuck she's stuck on the  
outside looking in  
Anchorhead Tatooine is where I am  
Get me to a starship, even an Imperial fucking starship  
Even with two suns this planet never looked so dim

So we're just gonna sit in this sandbox on our ass  
Farming moisture in the desert and my speeder's a  
piece of crap  
So slag it or sell it and we can buy ourselves a ticket  
Hyperdrive to Mos Eisley show this planet where to stick  
it  
I've never seen a mynock and never met an ewok  
No creature in a cantina has ever known how to rock  
Rebel or Imperial blasters blue or red or green  
I'll join either side 'cause you just don't know what it  
means to still be...

(Chorus)

If the blue milk doesn't kill me then the Hutts will surely  
get me  
The Sarlacc down below or the Empire above me  
Get me to Mos Eisley double quick or just forget me  
I'll hitch a ride I'll do it if it kills me because I'm...

(Chorus)
