Memories played one year to the day
We lay awake it won't be this way tomorrow
I kissed you goodbye, must be a million times
The morning you left I turned to the silent sorrow

You stepped out of my life, you stayed out of my life
and I want you so bad
I can't get you back

I was a star, you followed my light
Whispered my name and I faded from sight
And you stayed
Watching and waiting, the year floating by
The day you gave up, I came back to the sky
And it rained

You stepped out of my life, stay out of my light, lost in
the blast
I can't get you back and it kills me

Has anybody seen the light that used to guide me
Just looked around and it was gone
Has anybody seen the love that walked beside me
I close my eyes and it walked on

I gave you my heart, I gave up my soul
I'd lay down my life, without you my life's
hollow
I left you once, it won't happen twice
For the rest of my life you are the path I follow

Come back to my life, don't stay out of my nights
I am the star loving you from afar and it kills me

Has anybody seen the light that used to guide me
Just looked around and it was gone
Has anybody seen the love that walked beside me
I close my eyes and it walked on

Catch a falling star, or watch me as I fall
Wherever you are, you don't hear me when I call
Catch a falling star, or watch me as I fall

Fall into the sea, I flew into the sun

I said

Has anybody seen the light that used to guide me

Just looked around and it was gone

Catch a falling star
