Nemises

She got me lovin' and hatin' her all at the same time

She got me outta my body and outta my mind

She like a kind of addiction that I can't shake (when I
need that fix ya know)

Always a matter of time now before I break

Coz so many things are runnin' 'round my head

I shoulda listened what my mama said

It's always the bad girls that make ya feel right

And that's how it is, oh I can't fight it

There ain't nobody who can do it like she does

She's my nemises

There ain't nobody who can move it like she does

I'm outta my senses

She got the body, she got the smile

She got the style and I can't fight it

There ain't nobody who can do it like she does

She's my nemises

(Break)

She got me outta my rhythm and into her blues

She's in the video, she's on the radio

What she can do is amazing, she got me chasing, uh
oh oh oh

So many questions runnin' 'round my head

I shoulda listened what my mama said

It's always the bad girls that make ya feel right

And that's how it is, oh I can't fight it

There ain't nobody who can do it like she does

She's my nemises

There ain't nobody who can move it like she does

I'm outta my senses

She got the body, she got the smile

She got the style and I can't fight it

There ain't nobody who can do it like she does

She's my nemises

She on the radio, she's in the video

And everything that I do, she's everywhere I go

She's in the magazines, she's on the movie screens

What she can do is amazing

She on the radio, she's in the video

And everything that I do, she's everywhere I go

She's in the magazines, she's on the movie screens

What she can do is amazing

(Turn the lights out)

There ain't nobody who can do it like she does

She's my nemises

There ain't nobody who can move it like she does

I'm outta my senses

She got the body, she got the smile

She got the style and I can't fight it

There ain't nobody who can do it like she does

She's my nemises

There ain't nobody who can do it like she does

She's my nemises

There ain't nobody who can move it like she does

I'm outta my senses

She got the body, she got the smile

She got the style and I can't fight it

There ain't nobody who can do it like she does

She's my nemises
