Put on your head for this one
It starts right here
This is a wake up from
This is a shake up
From your earth
Your little sphere
Now there's no one left to lean on
I'll sit right here

Sometimes I feel I'm from outer space
So far away, I can't feel a thing
Your out of your head, I'll never change
I'm so far away

Scream in crowds for this one
There's no one here
Feel free to speak up
Words will never reach us
Your talk is cheap
I'll lend an ear

Losing my place
I'm floating on and on
It's you that I came for

Sometimes I feel I'm from outer space
So far away, I can't feel a thing
Your out of your head, I'll never change
I'm so far away

Losing my place
I'm floating on and on
It's you that I came for

Sometimes I feel I'm from outer space
So far away, I can't feel a thing
Your out of your head, but nothings change
Sometimes I cannot fix a thing
Sometimes I feel
Sometimes I feel I can't fix a thing
