

Seymour Glass "Thorazine"

Visit "[Thorazine](#)" on MotoLyrics.com

Soak me in thorazine
Maybelline queen
I'm burning alive
Let me feel just as empty
Like you do, broken mirror
Mix me up, my bad luck
Yeah!
This is what you wanted
This is what you get
Your driving me away
Over and over again
This is what you wanted
Well, you got it from me
Your driving me away

Fill the air big gravity
I'm coming alive tonight
For one more fire
There's nothing inside

This is what you wanted
This is what you get
Your driving me away
Over and over again
This is what you wanted
Well, you got it from me
Your driving me away

Starve the brain of oxygen
Play these games, it wears me out
Starve the brain of oxygen
It wears me down, down

This is what you wanted
This is what you get
Your driving me away
Over and over again
This is what you wanted
Well, you got it from me
Your driving me away
