I feel it when we touch  
Hear it when you call my name  
Though I can only see so much  
Something isn't quite the same

And I feel it when we kiss  
Hear it when you say goodnight  
There's a feeling that I miss  
And a feeling that I just can't fight

I just can't help the feeling  
I'm Losing You  
Got the feeling I'm losing  
I just can't help the feeling  
I'm Losing You

I feel it when you're far  
Feel it when you're standing near  
Doesn't matter where you are  
The feeling just won't disappear

Like the seasons that turns  
Like the falling leaves  
Like a candle that burns  
Like the open breeze

I just can't help the feeling  
I'm Losing You...
