What's going on, they'll infiltrate and steal it all then  
run away...  
But you gave your life and stood by your side...  
Impressions make those lucid shapes, combined to all  
of our mistakes...  
But I'll give my life and stand by your side...  
I never told you this but I owe you my pathetic life...  
And everytime I come around I'll always give you my  
all...

I keep holding on to golden days, but realizing time  
and time again...  
I've got this defining spark, and I'm not alone this  
time...  
I never told you this but I owe you my pathetic life...  
And everytime I come around I'll always give you my  
all...  
I understand, now that everytime I'm down i'll always  
find you...  
Inside my heart, though the world is so cold...  
Can't be yourself or find space to breathe...  
A bastard child alone in the sun...  
Still learning, how, to, she'd my skin...  
Now you start to make sense to me...

I never told you this but I owe you my pathetic life...  
And everytime I come around I'll always give you my  
all...  
I understand, that everytime I'm down i'll always find  
you...  
Inside my heart, Inside my heart...  
Just listen, I just have to say these few words...
