(David Lee Murphy)

Underneath the big blue moon  
Everything looks lonely  
Even that sweet smile upon your face  
Leavin' past tobacco rows  
Down that ole dirt road  
Can't remember when I felt this way

What did you do  
Kentucky girl  
You got me wantin' more  
Than I wanted to  
What did you do  
Kentucky girl

I knew we'd have to say goodbye  
And here we are together  
Takin' one last look before I go  
When I saw those big brown eyes  
My heart said forever  
Never heard it talk like this before  
What did you do  
Kentucky girl  
You got me wantin' more  
Than I wanted to  
What did you do  
Kentucky girl

Well if I go away  
And leave you behind  
When I come back someday  
Would you still be mine

What did you do  
Kentucky girl  
You got me wantin' more  
Than I wanted to  
What did you do  
Kentucky girl
