Psycho structures  
Virtual death  
Distorted visions  
A paranoid soul

Bleeding hopes  
& morbid echoes  
Mental suicide  
Just spiritual advice?

How would it be to have a dagger close by side?  
How would it be to carve all pain away - in just one  
slide?  
Behold the past - in your mind  
Behold the future - in your eyes  
Plan 9 from outer space - your recreation

Endless fever  
Elemental shades  
Dancing moonlight  
Black sunshine

Visual deconstruction  
Killing spree  
Endless life?  
Eternal despair!

Look what you are now  
Look what you've become  
A wreck of liberation  
A soul of disintegration
