Hook

Cause if it don't feed me I don't need that shit
(I... I came with this puzzle but my piece don't fit)
Born and raised sellin caine and the game don't quit
(I... I came with this puzzle but my piece don't fit)
It's been embedded in my blood since my days as a jit
(I... I came with this puzzle but my piece don't fit)
Been addicted to getting cash since my first lick
(I... I came with this puzzle but my piece don't fit)

Verse 1

I'm only as real as the lies that I tell or the truth that I
liveÂ
When I'm talking, I don't say much unless I'm straight
with the kids
You wanna see what it is then spend a day with the
kidÂ
But bring your pistol and a dutch and burn a jay with
the kid
See where we going it's love but niggas get chopped
upÂ
When problems pop up, they lighting the block up
See real niggas dying and the rest getting locked upÂ
Find yourself in some shit like your toilet done stopped
up
But me I gotta plan to catch a bird in the handÂ
And stash money in the bush while I'm cheifing on the
kush
I need a couple hunnit grand to cop a lil landÂ
And all the records that I push gone make you pussies
douche
And every thing I want ima get it in a minuteÂ
I done had a dirty start, I can't let it be my finishÂ
Ima dirty ass nigga, but my dreams legitÂ
Cause I came with this puzzle, but my piece don't fit

Verse 2

You see I move in small circles and encompass the
globeÂ
'Bout to make money a weapon, plus I'm bout to reload
The other side side of love life is what I got to exposeÂ
I'm tryna unfold your fabric and fill it with holes
Got the mind state of a menace, I'll murder ya showsÂ
Floss hard without rhyming bout rims or clothesÂ
That's a given, given a rhythm I'm a kill it with flowsÂ
Then bring back to life with my murderous prose
See I'm a... rapper a man a gee when I gotta beÂ
Tryna find some harmony with this monster inside of
me
Money made me a mad man, music made me a
prodigyÂ
Struggle made me strong and I'm armed without
apology
If it's not about progress you need to quit...
Cause what you mother fuckers munching on don't
make me shitÂ
Plus I don't really give a fuck, I got to feed my jits
Besides I came with this puzzle, but my piece don't fit

Verse 3

You see my life is composed of good books and
cartoonsÂ
Cocaine in the closet and cash in the storeroom
A killer smile lying eyes a tatt and some war wounds
A bid two kids and a road to fortune
See in my mind I was born in a different timeÂ
Where snitching will get you killed and cowardice is a
crime

Original was original, that's what made you a criminal
The world was only a problem until you flip what it's
given you
And you aint got to take it, but you got to make it
It's only a cycle til the day you decide to break it
But that aint telling you nothing the truth remains
naked
Real recognize real always will so you can't fake it
And I'm the most hated, but I don't give a shit
And don't carry on about cause I'm livin' it
And I aint asking you for nothing while I'm getting it
And I don't give a fuck about your puzzle if I don't fit in
it!
