"Hunger Of Infinity"

Visit "[Hunger Of Infinity](#)" on MotoLyrics.com

I want to contain the whole world
To become micro cosmos
I'm like a factory of thoughts
I'm just with myself
With my word, my power and energy as a man
As a demon, as a God, as Baphomet's symbol
A seed in all this commotion
Atum, Itmu,
Creator of omnithing, father of all Gods
I'm just with myself
With my word, my power and energy as a man
As a demon, as a God, as Baphomet's symbol

It's becoming tighter
I want to feed my mind with freedom
Let myself to rapacious leanings, trigger off manifesto
of social traces
Leave my body, fly into oblivion.
