[Part 1: The Eye Of Shiva]

[Instrumental]

[Part 2: The Black Diamond]

Rudis indigest'aque moles  
Hear the Serpent's voice:  
Your eyes shall be opened  
And you will become a god  
Sleep!  
Let the darkness be your light  
Fall!  
Go deep inside your mind  
Dream!  
Be awake in your dreams  
Take control of your will  
Your passions and thoughts  
Create worlds  
Go from reality to reality  
The end of the tunnel  
Threshold to reality  
The other side of the black hole  
Transcend from morality  
To divinity  
This is the alchemy  
Of the Black Shimmering Diamond.
