Don't you worry bout the morning
because the day might never come
don't worry bout the future
just stay while the night is young

Don't pretend that its your first time
don't pretend that its not fun
don't tell me bout your mother
just stay while the night is young

Its so easy to relax if you try
(relax if you try)
please don't think about the time going by
you can tell me bout the things on your mind
(things on your mind)
just lie back and unwind

Its so easy to relax if you try
(relax if you try)
please don't think about the time going by
you can tell me bout the things on your mind
(things on your mind)
just lie back and unwind

Don't say, don't say, don't say, don't say...
don't say, don't say...
don't say, don't say, don't say...

Its so easy to relax if you try
(relax if you try)
please don't think about the time going by
you can tell me bout the things on your mind
(things on your mind)
just lie back

Its so easy to relax if you try
(relax if you try)
please don't think about the time going by
you can tell me bout the things on your mind
(things on your mind)
just lie back and unwind
