ft Di Genius

Girl you been on my mind  
Everyday girl all the time  
I try to show you baby  
All that I've been thinking about  
Gotta let these feelings out  
I'm ready to let you know baby girl!

Chorus:

I think I'm falling in love  
Falling all over again  
Oh, oh, all over girl, all over girl  
I think I'm falling in love  
Falling all over again  
Oh, oh, all over girl, all over girl

I'm falling, I'm falling in love  
And I'm falling for you, no!  
Falling, think I'm falling in love girl!

I ask you...

Falling once for you girl, never planned it again  
Long portion change of chemical blend  
I'm in love with you know, more than I've ever been  
again  
..know why this love will end  
Lady by my side that I can defend  
I'm swallowing my pride, no need to pretend  
Life... gradually end.

Chorus:

I think I'm falling in love  
Falling all over again  
Oh, oh, all over girl, all over girl  
I think I'm falling in love  
Falling all over again  
Oh, oh, all over girl, all over girl

Girl, can't you see the passion in my eyes  
Genuine, I'm not telling no lies, no lie!  
Love for you will never die

Always in my heart forever, I'll be ever...  
Girl, I really wish that I can explain  
Just know this is more than a sex thing  
Don't want another girl, don't need a next thing  
Just to get you girl I take the next plane!

Chorus:

I think I'm falling in love  
Falling all over again  
Oh, oh, all over girl, all over girl  
I think I'm falling in love  
Falling all over again  
Oh, oh, all over girl, all over girl

I'm falling, I'm falling in love  
And I'm falling for you!  
I'm falling, I'm falling in love!  
Sexy girl!
