We gotta rise (to the top), gotta rise (to the top) gotta

Oh my how
Time fly by so quickly
When mi tink how we jus reach 50
Now mi proud till mi eye get misty
Rise up an we nah move risky

Now the island so small is a mystery
How we mean so much to world history
Paul Bogle to Garvey to Wally to starting a worldwide
rasta ministry

Wave di flag cah we proud ah we country
Mi so glad say we reach half a century
Black green and gold
Represent the sun the land the people hopes
Our people the strength of the land that
Half a century we work for the plan that
Brighter future for where we belong
Raise by the blessing of real strong ooman
Eternal father bless di woman
I am proud to be Jamaican
Respect goes to my sunshine girls
Watch Miss Jamaica go tun Miss World

Put dem inna track and inna spelling bee
