"Something In Your Eyes"

Visit "[Something In Your Eyes](#)" on MotoLyrics.com

Take a walk with me
And lets go back in time
Do you remember
The heat of December
and the way we walked
through pouring rain and in a star
and the way we laughed out loud

chorus:
there was something in your eyes
and now I see it was your love for me
there was something in your eyes
and what I saw still holds me in all
in your eyes

spend your life with me
until the end of time
we will make more memories
and we will share the stories
of the way we walked
through the pouring rain and in a star
and the way we laughed out loud

Chorus
And I saw a million angels
I saw an endless sunrise
I saw an open heaven
In your eyes
I saw an angels moment
I saw an endless love
I still see more than that through your eyes

Do you remember the way we danced
And the way we laughed out loud
Chorus
