You've shown the grace that is heaven's reward /
While silently facing the challenge of this world /
It can't be easy to maintain your composure /
When the sky is falling down and you can't hold her /
Love's great reward is with us and He's strong enough
/
When you can't hold on / Remember that He's strong
enough /
Endlessly waiting for something to change /
You've given me room to wander to my place /
It can't be easy / To keep love alive and growing /
When you're tired of the weight that you've been
holding /
Love's great reward is with us and He's strong enough
/
When you can't hold on / Remember that He's strong
enough /
I will spend my days here with you /
I will walk this line here with you /
When the sky is falling down / And I've tried to hold my
ground /
But I'm not strong enough /
Love's great reward is with us and He's strong enough
/
When you can't hold on /
Remember that He's strong enough
