We had some lonely times together
Maybe someday we will again
You know the blues don't last forever
So long, my rainy weather friend
I will write you from the seaside
When I arrive there with my love
I have been waiting such a long time
We both knew this day would come
We had some lonely times together
Maybe someday we will again
You know the blues don't last forever
So long, my rainy weather friend
I'm sorry, but i had to change the music
Too many songs in minor keys
They made me feel like I was losing
Sight of the forest for the trees
Sorry I left you in this junkyard
All of these rusting souvenirs
I know you've always had a good heart
Whatever tales you'd lend an ear
We had some troubled times together
Maybe someday we will again
You know the blues can't last forever
So long, my rainy weather friend
So long, my rainy weather friend
