didn't think I'd find you here
now the weather's finally clear
didi you think the moment passed?
medicine and broken glass

here it comes, the old clich?
something that your dad might say
could we give it one more try?

suddenly, a summer night
suddenly, a summer night away
suddenly, a summer night
suddenly, a summer night away

it wasn't very long ago
you laughed before you left
but if I make your fingers curl
if I make your silver pearl
could we give it one more try?

suddenly, a summer night
suddenly, a summer night away
suddenly, a summer night
suddenly, a summer night away
