

## Shameful Alex "From The Other Side"

Visit "[From The Other Side](#)" on [MotoLyrics.com](https://MotoLyrics.com)

[Vers]

Everytime I hear you breath  
I wish that you were my disease  
But I'm standing on the other side  
Feeling the air around my head  
Makes me wonder why I'm here  
And suddenly I'm just pasting away

[Mellanbrygga]

But it take some time to understand all these  
nightmares  
That is stuck inside my head and will never go away

[Vers]

My lesson is learned by time  
But why do I keep this in mind  
I'm Something that follows you behind  
Creating myself an dream  
A vision made of something unreal  
Just to forget this whole reality

[Mellanbrygga]

But it take some time to understand all these feelings  
That is stuck inside my head and will never go away

[Refr ng]

Now I'm sure, that I wont let it go, and that all stay the  
same  
This afterlife is wierd, and I'm standing here so scared  
I never felt so alone

[Mellanbrygga]

But it take some time to understand all these  
nightmares  
That is stuck inside my head and will never go away

But it take some time to understand all these feelings  
That is stuck inside my head and will never go away
