Nar-nat-nat-nation

Got a loving heart, an open mind
Directly connected to dimensions of another kind
I know who I am, I know what I be
Part of totality, totality is part of me
Create a circle, to go into
Enter by yourself to see how you will do
Slight attachment, got to keep in mind
Don't let it get to serious, it's but a game it's just a ride

Universal nation, dimensional motion
Is where I have come from
Is where one belongs to
Open up the stargate, let everybody enter
Universal nation

Universal nation, transmutation,
Can only come from an integration,
An activation of the spirit of the mind,
Now's the time to leave the old ways behind
To get together, to get into,
The next dimension where our knowledge we accrue
United in thoughts and frequency,
Is the only way for one to be

Higher dimension, where actually lies
Mergent realities, wiped out in time
Alter vibration, to raise the frequency
So one can synthesise the essence and the energy
I see the future and I state again
In it will be unity, a self fulfilling prophecy
And unity is nothing else
We all want consciousness, experience, to save
yourself

Universal nation, dimensional motion
Is where I have come from
Is where one belongs to
Open up the stargate, let everybody enter
Universal nation

Universal nat-nat-nat-nat-nat-nat-nation

Universal nation, transmutation,
Can only come from an integration,
An activation of the spirit of the mind,
Now's the time to leave the old ways behind
To get together, to get into,
The next dimension where our knowledge we accrue
United in thoughts and frequency,
Is the only way for one to be

Universal, nat-nat-nat-nation
Universal, nat-nat-nat-nation
Universal, nat-nat-nat-nation
Universal

Universal nation, dimensional motion
Is where I have come from
Is where one belongs to
Open up the stargate, let everybody enter
Universal nation

Universal nation, dimensional motion
Is where I have come from
