We were always having to hurry
Every time we said hello
With leaving always staring at us

We would have talked for hours
But the walls of time were there
Ever closing in on us
And our lives had boundaries

Chorus:

It's gonna be so lovely
When we are all together
It's gonna be so lovely
When we are all together forever- forever

I want my family beside me
But the miles are in-between where we are
And the places we call home

(Repeat Chorus)
