I don't wanna your excuses Sorry I cannot forget  
My illusion is so deep that makes me sad  
I can't explain my feelings  
I can't explain my tale  
I think you were special  
You are not worthy of being called friend  
Cause you are like  
Anyone else  
I don't understand your reasons  
But really I don't care  
My anger is so deep that makes me bad  
Im fed up with your stories  
Im fed up with your lies  
I think you were special  
You are not worthy of being called friend  
Cause you are like  
Anyone else
