Only you only you Just can't stop to think
Like a joke, like a work, like a
Only you only you but Im not insane
What I do what I do
Never getting down
Do my best, do my stuff, do my
I can search in my eyes what it's going on
Look in the mirror - search in the mirror
My desperation my desperation
My thoughts are killing me (x 2)
Nothing new nothing new
Just some stupid thoughts
Like the stones, like my bones, like a
I can do I can do I can go to sleep
Stop and stand stop my head stop my
I can search in the night the solution
Look in the mirror - search in the mirror
My desperation my desperation
My thoughts are killing me (x 2)
