Smooth

Your eyes open mine about this magic time
End your are showing me all my dreams make come
true
But the emptiness so cold

Go with me that way
Light the night to day
But never fly to high

Stay close to your heart
Stay close to your heart

I will dance will ever dance with you
And I I Â'wane get there too

Can you tell me more bout other precious times
Then I can asure all my dreams make come true
Your free your self and home

Go with me that way
Light the night to day
But never flay to high

Stay close to your heart
Stay close to your heart

I will dance will ever dance with you
And I I Â'wane get there too
