"Keep You In Mind"

Visit "[Keep You In Mind](#)" on MotoLyrics.com

Thinkin' bout days of endless summer
When we used to take our old sweet time
Before all the changes and forks in the road
I'd have never believed how far we could go

Where does the time go, how could we know what we'd
leave behind
Wherever I go, I hope that you know I keep you in mind

Flyin' so high like the world was below us,
Till gravity came and knocked us back down
We used to sing songs of endless tomorrow
When did they all turn to songs of yesterday

Where does the time go, how could we know what we'd
leave behind
Wherever I go, I hope that you know I keep you in mind

Where does the time go, how could we know what we'd
leave behind
Wherever I go, I hope that you know I keep you in mind

Where does the time go, oh
Where does the time go
I keep you in mind
