

Shane Wyatt "She Could Do Better"

Visit "[She Could Do Better](#)" on MotoLyrics.com

She won't talk the way you want her to
She won't act the way you'd like
She won't do the things that make you proud;
Make her special in your eyes

She won't even try to understand
Even though you're always right
You say you think she could do better
And for once, I think you've seen the light

Chorus: She could do better
Than someone like you
Someone who'd never
Put her down the way you do
She could do better
And I hope someday she'll see
She could do better
She could have me

'Cause I love the way she laughs out loud
The way she dances in the aisles
And all the things that you complain about
That smug look in your eyes

She'll never make you happy
Aw 'cause you just can't be pleased
So I'll love her from a distance
And pray someday she sees

(Chorus 2x)

She could do better
And I hope someday she'll see
She could do better
She could have me
