VERSE:1

It's not about you
It's not about me
It's about everything that we could be
And I've just got to say that we can't back away
Cause when we say together we mean it's forever
And we have a diamond inside of our hearts a light
That shines brighter than stars...

CHORUS:But when they say it's time to leave we always
Disagree but then we stop to think we can't let them win
Now cause today is the day that we've got to say wats
on
Are minds... cause were gonna make it through
Were gonna make it happen and were gonna make it
work

VERSE:2

Cause were trying so hard to break through out of the
Darkness and in to the light so we'll be fine...
But there's so much things that can stand in are way
So were so afraid to let are feelings show cause we
can't
Let them know so what are we suppose to do we wanna
Leave but we'll miss you

CHORUS

So when they say it's time to leave we'll always
Disagree cause we always stop to think we can't let
Them win now cause today is the day that we've got to
Say what's on are minds so were gonna make it
through
Were gonna make it happen and were gonna make it...
WORK!
