

Shanice Wilson "Get Up"

Visit "[Get Up](#)" on MotoLyrics.com

feat. Sheila E.

(Verse) Boy lets break it down

Keep on workin' it till we get

down to the ground

Oh Boy, it's hot in here

And I'm just getting started

so you're going no where,

So come, do what you came here to do

I came to get started tonight

But boy I don't know about you

I know I got something you like

What's up whatcha' gonna do

(Chorus) Why (sittin there you know your

frontin' ackin' like you don't

But you know you want it (ooh) feel you

stare know your eyes is on me.)

Get up get over here and put it on me,

(Verse) Now that you've arrived,

Bring your body in close

you don't have to be shy

Oh boy

look in my eyes

Can't you see I ain't playin'

its bout to get live

Let me know what you want me to do

I came to get started tonight (tonight)

but boy I don't know about you

I know I got something you like

What's up whatcha' gonna' do

(Chorus) Why (sittin there you know your

frontin' ackin' like you don't

But you know you want it (ooh) feel you

stare know your eyes is on me,)

Get up get over here and put it on me,

(Chorus)

I know you wanna dance with me

(So get up a baby put it on me)

I know you wanna dance with me

(put it on me)

I know you wanna dance with me

(So get up a baby put it on me)

I know you wanna dance with me

(dance with me)
(Rap) Yes'
You have something I like
Enjoying myself with you
trying to enjoy the night
Body is right
Plus you got me feeling your smile
Got!
Your boy open and I'm loving smile
It's hot in here
Got me wiping my brow
Slide form side to side
Yeah the music is loud
Not!
Here to fill your head with lies
Here to dance with you
Hold hips and thighs
Heard the song when you said
you closed your eyes
Nothing to fear
Body is one with the snare
Party atmosphere
Drink and smoke in the air
How can I win
Think man where to begin
Dark skin
Make man think again
Listen to flutes straight hypnotize the loop
Listen to words I say that you know are true
Tahir Jahi man and you know with who
(Chorus)
