We're still around and we don't bleed  
To be in the Record industry, what's  
The connection between you and  
Me? Melodic-core and P.M.A, a buch  
Of songs to get in Their heads. We love  
This job, we haven't given up,  
Although alone, together we're gonna  
Make it through! Can't do without you,  
You can't do without me...

Our feelings are true. This is not faking...  
Will it last For years? I know we cannot  
Escape of this money Machine, indeed we  
Need a van, new guitars and better Amps,  
But we still resist! Three missing bullets  
In the Same direction, ready to attack the,  
Ready to fuck Them, bleedy hipocrits!
