

Shapiro "Hiding Out"

Visit "[Hiding Out](#)" on MotoLyrics.com

I have been hiding out so long
The air is cold outside hold on
I've been trying to find it
I've been trying to find it
People ought to know
When it rains and when it snows
All we've got to do is wait for now

Well, I've been trying honestly
I've been trying honestly
I've been trying honestly

I've been trying to find it
I've been trying to find it
I've been trying to find it all my life
I've been trying trying

People ought to know
When it stops it cannot go
All we've got to do is wait for now

Well, I've been trying honestly
I've been trying honestly
I've been trying honestly

If you've got a minute
Then I've got a minute
If this has been a play
Then I've been a critic

If there's nothing at all
Then let's just forget it
If this has been a play
Then I've been a critic

I've been trying all
I've been trying all
