Well that's my phone number

It's quite easy to remember

You can call me anytime, anytime you want

I'll be there

My name is David, and now that's a name

So easy to remember, since there's so many stars
called David

Like David Bowie

And David eerm...

I want to get stone, when you get stone

I want to get high when you get high

I saw you walkin' in the streets

And I thought this woman is so gorgeous

Well and I thought you would be intelligent

I thought you would be great in my life

We would have a house full of love

Full of animals full of cats

But maybe you're not interested in me

Anyway if you want to call me anytime

Just do it
