This is the gig of my life, I was a little boy, knew the  
song right

I think it's okay but it's not

Angika she sees a boy into my life

I was only victim of, victim of time

Angika believes a boy has been here before

Sunset my days, I spent my days under the bed

So did my sisters, brothers, uncles, cousins

everybody's under the bed

I spent my days intact and packed so sick, so sick  
along the way

We were sixteen in the whole pack, and I was sixteen by  
the way

They told me a lot 'bout the light but they didn't tell me  
'bout the flames

And if you see the ocean, just tell him I'm okay
