My mama said it's gonna be hard many times
But think of me and the love I meant to give
And remember how it looks super shy
The way you grabbed molecule anyhow
I never noticed what kind of love she could have meant
I didn't know that it meant depend on me

Sweet protection luminous I'm five
You want me to play o yes I can play
Sweet protection luminous I'm five
You want me to play o yes I commit and play

My mama said it's gonna be hard many times
But think of me and the love I meant to give
And remember how it looks super shy
The way you grabbed molecule anyhow
I never noticed what kind of love she could have meant
I didn't know but it meant depend on me

Sweet protection luminous I'm five
You want me to play o yes I can play
Sweet protection luminous I'm five
You want me to play o yes I commit and play

My mama said it's gonna be hard many times
But think of me and the love I meant to give
And remember how it looks super shy
The way you grabbed molecule anyhow
I didn't know but our love was meant to be
My mama said it's gonna bleed from time to time
My mama said it's gonna be hard many times
But think of me and relax there's love ahead
Anyhow...
