Your eyes and my eyes
Haven't talked in quite a while
Seems like a lifetime
Since I walked beside your smile
There's a dark cloud that's hanging above
Memories never lie
Still we talk about the way that it was

And I think we both know
The feelings haven't died

I wasn't the one who said goodbye, oh no
I wasn't the one who disappeared into the night
And I won't be the one to say that we can't try

Your touch and my touch
Haven't spoken for sometime
You say we've both changed
And you're always on my mind
I can tell you that it's over and done
But I would only lose
Being close to the one that I want
So go on
And ask me
If I'm still in love with you

There was no need for you to ask-
Please don't ask
You ought to know by now, oh babe, I want you back

I wasn't the one who said goodbye
I wasn't the one who disappeared into the night
