If you need somebody tonight
Here I am, here I am
If it's love you need in your life
Here I am tonight

If you want somebody to hold
Take my hand, take my hand
If the night is getting too cold
Take my hand tonight

I will hold you
I will love you
I will be there right beside you
You will never be lonely again
If your heart is missing someone
Here I am
Here I am

If you need somebody tonight

I will hold you
I will love you
I will be right there beside you
You will never be lonely again
If you want a love that is strong
Here I stand, here I stand
In my arms is where you belong
If you need somebody tonight

If your heart is missing someone
Here I am, here I am
And if what you need is my love
Here I am tonight
