Many things u just dont know about me, i dont quit that easy. so dont stand there with your jaw down in surprise. im a dreamer you dont see right through me u just thought u knew me. so hang on and you just might enjoy the ride. right now im down, that much is very clear. just wait and see im going up from here.

im going higher. im a flyer. im gonna keep flying higher.

Rumor has it that im done completly. but it wont defeat me. cause i believe theres power in between, yeah. you say the place wont take me very far. one day you'll stop and glace at my shinning star.

im going higher. im a flyer. im gonna keep flying higher.

Risen Risen of the ground. nothing nothing can pull me down. higher higher im gonna be. free free free. oh

Risen Risen of the ground. nothing nothing can pull me down. higher higher im gonna be. free  
im goning high higher. im a flyer and im gonna keep flying higher higher higher im a flyer and im gonna keep flying higher.
