I was walking through the world alone
Unknown
Afraid to try again
All I ever wanted was to feel
Somethin' real
And not say goodbye again
Ev'ry night beneath the moon I'd pray
Show me the way
Though this loneliness
Then you came into view
And from that night I knew
I'll love you over and over again
I'll hold you close to my heart
For every lifetime
Now and forever I promise you
To the end
I'll love you over and over again

Ev'ry time I look into your eyes
And you smile
It just amazes me
How two people made of flesh and bone
Get to be shown
Such sweet eternity

Let the mountains tumble, let 'em fall
Through it all
I'll be by your side
And until time grows old
With all my heart and soul

I'll love you over and over again
I'll hold you close to my heart
For every lifetime
Now and forever I promise you
To the end

I'll love you over and over again
I'll love you over and over again
I'll hold you close to my heart
For every lifetime

Now and forever I promise you
To the end
I'll love you over and over
And over and over again

I'll love you over and over again
I'll hold you close to my heart
For every lifetime
Now and forever I promise you
To the end
I'll love you over and over again
