Kings and shepherds make their way  
Straight to where a baby lay  
Rich and poor and lonely  
Bow before this sight

A star has led them to this place  
The word that's been echoing through space  
Becomes a child tonight

Light to shine in the darkest night  
Light to make all the wrong things right  
Light to show everyone the way  
Light to shine where a virgin lay  
Tonight

Angel voices fill the air  
Angel wings are everywhere  
Light so bright it's blinding  
Shepherds shake with fright

A warmth begins to flood the hill  
Fear not, peace to you good will  
Comes to earth tonight

Light to shine in the darkest night  
Light to make all the wrong things right  
Light to show everyone the way  
Light to shine where a virgin lay  
Tonight

Light will be so bright  
It will shine through the darkest night  
Send down Your holy light

Star of David, the Prophet's star  
Yahweh, God come to where we are  
Star to mark the Messiah's birth  
Star of heaven now touches earth

Light to shine in the darkest night  
Light to make all the wrong things right  
Light to show everyone the way

Light to shine where a virgin lay  
Tonight
