Verse

Yesterday

I stayed up waiting for your call

To hear you say

That fight meant nothing at all

But here's today

And still no call from you

Did you get my page?

It read: my love's stronger than pride

I'm so afraid

Why didn't you call me back last night

Was this your way

Of saying goodbye to me?

Pre-Chorus

I'm hoping you just need some time

Some time to clear away your mind

I'll give you all the time you need

But when you want me...

Chorus

Just Call Me

When you wanna get back

To us

When you wanna get back

To love

When you wanna get back

To me
