Looking through windows like a t.v. screen  
Nothing is ever black and white  
A sex film distraction for an armchair stud  
He's in love for the night  
Looking through windows of expensive cars  
This week's flavour inside  
She's working for the company  
She's in love for the night  
Nightlife I've seen it all  
Nightlife like pictures of war  
Nightlife strangers in the bed  
Nightlife try to forget  
Looking through windows like an old peep show  
I'm listening to breathing and lies  
Don't tell mother or the man next door  
Girls in love for the night  
Looking through windows at a friend of mine  
She's like a knife in my heart  
But you can get used to anything  
I'm in love for the night
