## "Sick Of You"

Visit "[Sick Of You](#)" on [MotoLyrics.com](#)

### Verse 1

Well I don't wanna wake up to this tomorrow,  
I don't wanna wake up at all if I have to feel this way,  
I'm tired of everyone and I'm tired of myself,  
I'm sick of the ignorance and I'm sick and tired of  
you

### Chorus

I thought I had a friend and I thought I had you,  
I thought I has someone to talk to till you turned your  
back on me,  
I thought I saw a light in the darkness,  
But everything I've always had just faded away

### Verse 2

You ended what we had and you'll never be forgiven,  
I'll never look at you the same way.  
Step down from your throne,  
Because things aren't always what they seem to be.

### Chorus

I thought I had a friend and I thought I had you,  
I thought I has someone to talk to till you turned your  
back on me,  
I thought I saw a light in the darkness,  
But everything I've always had just faded away
