(I cannot feel anything)
My lips are numb
(Why am I still standing?)
I tasted the kiss (Of your poison)

I cannot speak (I cannot speak)
I cannot move (I cannot move)
Everything I say
Is about you
I'm done with us (I won't obey any longer)
I'm through with you (I can't stand you any longer)
Why can't I leave? (I'm filled with guilt)
I'm stuck in silence from your (Silent poison)

(I'm still standing)
You can't drag me down
(I'm stuck here waiting)
My body is numbed to the ground
I'm still standing
And you can't drag me down (Drag me down)
But I'm still stuck here
(My body is numbed to the ground)

My mind dances in shadows
I hang by a thread of humanity
I want to leave you behind
I can't make a sound I cannot see
What runs through me is your silent poison
(Silent Poison)

I cannot speak (I cannot speak)
I cannot move (I cannot move)
Everything I say
Is about you
I'm done with this (I won't obey any longer)
I'm through with you (I can't stand you any longer)
Why can't I leave? (I'm filled with guilt)
I'm stuck in silence from your (Silent poison)
