[Verse 1:]

When you grow up your heart dies
I wish that was mine
But it's ally sheedy line
If ally sheedy ever wants to talk
I'll walk from liverpool to new york
I'll walk back I promise you
If molly ringwald turns up two
Maybe I'm not in denial
I've heard nostalgia is back in style

[Verse 2:]

Sometimes I feel life's passing me buy
I was once full of hope now the question is why
I get days when I need cheering up
And I thank god for the breakfast club
Remembering the days when I had it all
Long time ago but I can just recall
These days never seem the same
I'm at my best down memorey lane

[Verse 3:]

It's so easy to go back in time
To a year you where in your prime
If I had my time again
Could I choose different friends then
I had plans I must admit
But most of them just hit the skids
Nostolgia has the power to make you see
That things aint what they use to be

[Repeat verse 1:]

I know I should look forward
And not look back
But nostalgia has a habit
Of not letting you do that
How much can I learn from the past
Only that things never last
Was it really this good and if not
Is nostalgia all I got
