If you've a problem with evil men  
You can dispense with all of them  
Don't look for a spell or a magic potion  
Summon immediately Roger Explosion

He'll kill them with his gun  
"Stick your hands up, you bum"  
His first name's not his last  
And he drives very fast

Whenever robbers rear their ugly features  
I speak of Buuto not those goatee creatures  
He'll fight for justice, and when necessary kill  
He may be living but he will always be still Roger  
Explosion

Roger Explosion  
Roger here
