You left a yearning, in my heart  
And I can't soothe it, naw, naw, baby  
I can't find another thrill, strong enough to remove it  
This HEAVY LOVE  
It's too high to get over, naw  
It's too deep to get under, naw  
It's too wide to get around  
And it's weighing me down  
This HEAVY LOVE, oooweee, baby  
It's too high to get over  
Watch out you might drown  
(Too deep to get under)  
It's too deep to get under, baby  
It's too wide to get around  
And it's weighing me down  
Oh why, tell me why  
Have I been condemned to love only you  
Why, tell me why  
Can't I spread my wings and fly above you  
To the world beyond

These memories that cloud my mind  
I can't erase them - I've tried hard, baby  
I can't find another love, strong enough to replace  
them Aaaawww, naw, oooooo this HEAVY LOVE  
It's so high  
(Too high to get over)  
I can't get over I've tried  
Too deep to get under - you might drown  
Too wide to get around - and it's weighing me down  
Oh why, tell me why  
Have I been condemned to love only you  
Why, somebody tell me why  
Can't I spread my wings and fly above you  
To the world beyond  
This HEAVY LOVE, baby  
It's too high to get over, you can't jump that high  
(Too deep to get under) ooohhh, baby, you might  
drown  
(Too wide to get around) you can't get around, Oh  
baby, and it's weighing me down  
It's weighing me down

You got my heart stopped, baby  
(Weighing me down)  
It's weighing me down, down  
This HEAVY LOVE, baby  
Too high to get over  
It's too deep to get under  
It's too wide to get around, baby  
And it's weighing me down  
It's weighing me down  
Aaaww, can't you come back and tell  
(Weighing me down)  
It's weighing me down  
This HEAVY LOVE, baby  
It's too high to get over  
It's too deep to get under  
It's too wide to get around  
And it's weighing me down  
I want you to understand  
(Weighing me down)  
It's weighing me down  
It's weighing...  
This HEAVY LOVE, baby  
It's too high to get over  
Oh, I can't jump that high, baby  
(Too deep to get under)  
Oooohh, it's too deep to get under  
It's too wide to get around  
And it's weighing me down  
Oohh, look like I got lead on my legs, baby  
(Weighing me down)  
Aaww, don't wanna drown

This HEAVY LOVE, baby  
Too high to get over  
It's too deep to get under  
It's too wide to get around  
And it's weighing me down  
(Weighing me)  
Please don't hurt me, baby  
With this HEAVY LOVE, aawww, baby  
Too high to get over
