It was a night like this
Under the stars one kiss
And I totally knew you were the one
And I had no reservation no

That day is still on my mind
I play it over and rewind
But I never get why you never fell
The same way that I did

[Chorus:]
I wish you gonna crash in me
No turning back totally
Lost in a rush the way that I was
Totally lost in you

Why couldn't you crash into me
Why can't tell no past on the things
Holding you back the way that I have
Been doing the same for you
Why couldn't you crash in me

One look is all that I needed to know
That you are for me and I didn't need
No more cofirmation ohhhh

So why do you ask so many questions?
I don't understnad what makes you keep coming back
If you just let our worlds collide you'll feel so much
better

I wish you gonna crash in me
No turning back totally
Lost in a rush the way that I was
Totally lost in you

Why couldn't you crash into me
Why can't tell no past on the things
Holding you back the way that I have
Been doing the same for you

Why couldn't you crash in me

Why you so afraid of letting go
It's like some things gonna go
Instead it's going down the road

[Chorus]

Why don't you crash into me
No turning back totally
Lost in a rush the way that I was
Totally lost in you

Why couldn't you crash in me
Why can't tell no past on the things
Holding you back the way that I have
Been doing the same for you

Why won't you crash into me
Why won't you crash into me
Why won't you crash into me
Why won't you crash woh oh
Why won't you crash into me
No turning back ohhh

Why won't you crash oh
Why won't you...
