It's not you
That brings these tears to my eyes
It's not you
That makes me sad

It's that you don't
Care who you're leaving behind
I'm gonna miss you
I'm gonna miss you

Time keeps turnin' as I'm breakin down in this room
Only a few more hours 'til you go

Don't wanna fall deeper into this nightmare
Not if I can't be with you
If there's a way to end my suffering and pain
Then please won't you rescue me

Is my heart
Somethin' you played with for fun
Or did you really love me
Like I loved you

Can you come back
So you can see what you've done to me
There's no way out of this mess

Can't move on with these feelings inside my head
Not this regret or this emptiness

Don't wanna fall deeper into this nightmare
Not if I can't be with you
If there's a way to end my suffering and pain
Then please won't you rescue me

Don't wanna fall deeper into this nightmare
Not if I won't be with you
