if that's okay with you
I like the way you look with out your makeup
I had a girl before we met but we broke up
There's something 'bout you that makes me want to
step up
step up and be with you
if that's okay with you

We'll keep the neighbours awake
too late too late
coz imma make you feel so good
that's how it's happening
yeah we'll keep the neighbours awake
too late too late
coz baby i wana step up and be with you
if that's okay with you

I'm guna make you feel like youre heaven on earth
im guna thank your mother just for giving you birth
im guna wana hold you in my arms when you cry
if that's okay with you
if that's okay with you

I wana keep your toothbrush at my apartment
make a second set of keys and ask you to move in
i'm not crazy
i know what im getting myself in
i wana live with you
if that's okay with you

I'm guna make you feel like youre heaven on earth
im guna thank your mother just for giving you birth
im guna wana hold you in my arms when you cry
if that's okay with you
if that's okay with you

I'm guna make you feel like youre heaven on earth
im guna thank your mother just for giving you birth
im guna wana hold you in my arms when you cry
if that's okay with you
if that's okay with you

if that's okay with you
if that's okay with you
yeah yeah

we'll keep the neighbours awake
too late too late
i wana love you this way that way this way
we'll keep the neighbours awake
too late too late
i wana love you this way that way this way

I'm guna make you feel like youre heaven on earth
im guna thank your mother just for giving you birth
im guna wana hold you in my arms when you cry
if that's okay with you
if that's okay with you

I'm guna make you feel like youre heaven on earth
im guna thank your mother just for giving you birth
im guna wana hold you in my arms when you cry
if that's okay with you
if that's okay with you
if that's okay with you
if that's okay with you
