Excuse me girl, can I talk to you  
Maybe get you name and your number too

I don't mean to be blunt, but baby  
I know that I've got the thing you need  
Say what you want and I can make sure  
You get it on the count of three

We can move slow or we can move fast  
To get to it right away  
You must've known with a body like that  
I'd go insane

You got me so, so hooked on  
Every little thing you do  
Has got me so, so turned on  
Let me take a look at you

Without a doubt, I'm higher now  
Girl, I'm higher now  
Every little thing about you  
Has got me so

Girl, you got me so, got me hooked on you  
And I'm so turned on by the things you do

It's okay to be shy but don't you deny  
That I got that thing you need  
I'll say what I want and you can make sure  
I get it on the count of three

A pretty face on a body like that  
Don't come along every day  
Maybe I'm over confident  
But you'll say my name, you got me so  
Say my name

You got me so, so hooked on  
Every little thing you do  
Has got me so, so turned on  
Let me take a look at you

Without a doubt, I'm higher now  
Girl, I'm higher now  
Every little thing about you  
Has got me so

I can tell I'm good for you  
I can tell you see it too  
When you wanna leave tonight  
Should we go to yours or mine

You got me so

You got me so, so hooked on  
Every little thing you do  
Has got me so, so turned on  
Let me take a look at you

Without a doubt, I'm higher now  
Every little thing about you  
Has got me so

You got me so, so hooked on  
Every little thing you do  
Has got me so, so turned on  
Let me take a look at you

Without a doubt, I'm higher now  
Girl, I'm higher now  
Every little thing about you  
Has got me so
